

Tag, You're It Activity

Help us tag the manatee! Draw a satellite tag on the manatee's tail so we can track its future travels. Hint: use the word bank below to be sure you draw all the parts of a tag!

Using the word bank below, help us label the different parts of the satellite tag.

- Belt
- Tether
- Transmitter
- Float/Buoyancy Device
- Bonus: Can you label the peduncle?

Feel free to label other parts of the manatee that you know!
